

**Official Proceedings of the Washington Township Board of Trustees**  
**June 3, 2024**  
**Washington Township Center**  
**30200 Town Center Road, Beecher, IL**

Supervisor Stanula called the meeting to order at **7:00 p.m.** to pay bills for the month of **May** and transact any other business that may come before the Board of Trustees. The meeting agenda and guest sign-in sheet are attached. Stanula led the Pledge of Allegiance.

**Roll call:**

**Present:** Supervisor Mike Stanula **Trustees:** Teresa Peterson, Mark Herlitz, George Obradovich  
**Absent:** Tracy Heldt

**Other Officials present:**

Clerk Joe Burgess, Assessor Patricia Peters and Highway Commissioner Mike Smith

**Approval of the Board of Trustees Meeting Minutes Dated May 6, 2024:**

Supervisor Stanula asked if there were any corrections or additions to the May 6, 2024, Board meeting minutes as presented. Being none, he asked for a motion to approve the minutes.

**Motion:**

Trustee Herlitz made a motion to approve the minutes of the May 6, 2024, Board meeting as presented. Trustee Peterson seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote.**

**Public Commentary:** None

**Reports:**

1. **Road Commissioner** - Commissioner Smith reviewed his written report (attached). Smith said his crew has cut the tall grass and weeds at all the corners where a township road intersects with IL Route 1 and County Line Road because the tall grass makes it very difficult to see oncoming traffic. Cutting these intersections is supposed to be done by either the state or county, but it may only get done once a year and the township takes the initiative to keep the grass cut as needed.
2. **Assessor** - Assessor Peters reported that 107 people took advantage of the May 29<sup>th</sup> Tax Exemption Event sponsored by Will County at the Washington Township Center. She has also assisted numerous residents as well prior to and after the event. Peters, who lives in the unincorporated part of the township, thanked Commissioner Smith for cutting the grass at the intersections.
3. **Clerk** – Clerk Burgess reported that 20 people attended the May 22<sup>nd</sup> Senior Movie Night. Will County Green sent the final numbers from the recycling event held on May 11. The county reported that 312 Will County residents were served and a total of 16,832 pounds of recyclable materials were collected.

The board reviewed the phone application information sent from CLR Digital. The Board was satisfied with the updates they requested at the May meeting and asked that the water tower picture be removed from the app and replaced with a picture of the train depot.

4. Supervisor's Report - Supervisor Stanula has received a letter from IDOT stating that the Illiana Expressway project has been suspended due to a "lack of sufficient capital recourses". Stanula said he received the same letter last year.

The Beecher Chamber of Commerce is preparing "welcome bags" for all new residents moving into Washington Township / Beecher. The township is contributing to this project by providing print material that includes a current township newsletter, transportation brochures and an "About Us" pamphlet that outlines Washington Township's services and programs.

Stanula is meeting with a sign vendor on June 4 to discuss options to replace the township's existing road sign with an electronic sign board.

Stanula read the letter (attached) he sent to the Will County Planning and Zoning Commission regarding the township's objection to the variance Turning Point Energy requested pertaining to how often grass needs to be cut and the height the grass can grow to before being cut. Turning Point responded to the township and their letter (attached) was also read to the Board. Turning Point did offer to discuss the township's concerns, but no meeting has been set up at this time. Stanula said, in his opinion, the solar farm is a commercial business, and they should be governed by the same rules that all other commercial businesses have to follow. This includes landscaping and appearance.

5. Trustees Report – No report.
6. Transportation Report – The township has received information from Will County stating that the county will be paying 100% of the Will Ride costs for the remainder of 2024. This will save the township approximately \$10,000.
7. General Assistance Report - There was one new approved case for General Assistance in May. Emergency assistance was provided to pay the applicants past due electric and gas bills and part of their rent. Total expenditures were \$900.

#### **OLD BUSINESS:**

1. Consideration and Approval of Revised Washington Township Employee Handbook – The handbook is still being reviewed by the township's legal counsel.
2. Consideration & Approval of Thriveworks Participation Contract (Beecher Fire District) – The Thriveworks "Master Service Agreement" has been revised based on several recommendations from the township's legal counsel and they have approved the final draft of the agreement. The township has appropriated \$10,000 in the 2024-25 budget for this program but expect the total expenditures to be under \$6000. Trustee Herlitz asked if there were any other entities contributing to the program and none were noted at this time. There has been discussion that Will County may take over the entire program as early as next year.

**MOTION:**

Trustee Obradovich made a motion to approve the Thriveworks “Master Service Agreement” as presented. Trustee Herlitz seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote.**

Clerk Burgess will request account details and payment information from Thriveworks.

3. *Consideration and Approval of 2024-25 Town Budget Ordinance #24-01* – The Board reviewed the budget during the Budget Hearing held prior to tonight’s meeting. Supervisor Stanula asked for a motion to approve the budget as presented.

**MOTION:**

Trustee Herlitz made a motion to approve the 2024-25 Town Budget Ordinance #24-01 as presented. Trustee Peterson seconded the motion. There was no discussion on the motion and the motion was **approved by roll call vote 4-0.**

**NEW BUSINESS:**

1. *Consideration and Approval of Pending Zoning Applications* – A zoning request has been received from a resident at 28520 S Ashland Ave, zoning case #ZC24-023. The 5-acre property is currently zoned A2, and the applicant is asking for a variance to increase his accessory building (shed/barn) from 3000 square feet to 3,332 square feet. The addition to the building will not change any setback or other zoning requirements. The Board had no objections to the request and Supervisor Stanula asked for a motion to approve the request.

**MOTION:**

Trustee Peterson made a motion to approve the variance request for zoning case #ZC24-023 for the property located at 28500 Ashland Ave. Trustee Herlitz seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote.**

2. *Township Recycling and Refuse Plan Discussion* - Will County Green has asked the township to consider a referendum that would allow the township to offer garbage and recycling services to its unincorporated residents. If approved, the refuse program “should” save the residents money on their garbage bills. Other benefits would include only one company picking up refuse on the same day of the week versus the numerous different days that are occurring now and offering recycling to residents. The Board would like more information about the entire process and Will County Green will be contacted to either come to a meeting or meet with Supervisor Stanula for additional information.

**PAYMENT OF BILLS:**

**General Assistance Fund**

The board reviewed the **May** bills that were paid from the General Assistance Fund as prepared by the Supervisor and presented by the Clerk.

**MOTION:**

Trustee Obradovich made a motion to authorize payment of all bills paid from the General Assistance Fund for the month of **May** totaling **\$900.00**. Trustee Herlitz seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote.**

**Insurance Fund**

The board reviewed the **May** bills that were paid from the Insurance Fund as prepared by the Supervisor and presented by the Clerk.

**MOTION:**

Trustee Obradovich made a motion to authorize payment of all bills paid from the Insurance Fund for the month of **May** totaling **\$6,894.00**. Trustee Peterson seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote**.

**Road & Bridge Bills**

The board reviewed the Road District’s **May** bills as prepared by Commissioner Mike Smith and presented by the Clerk.

**MOTION:**

Trustee Herlitz made a motion to authorize payment of all applicable payroll, bills, and appropriate transfers or debits from the Road & Bridge Account for the month of **May** totaling **\$86,924.28**. Trustee Peterson seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote**.

**Town Account (including Transportation Fund)**

The board reviewed the **May** bills as reviewed by the Supervisor and presented by the Clerk. There were no questions regarding the bills.

**MOTION:**

Trustee Peterson made a motion to approve payment of all applicable payroll, bills, debits, and appropriate transfers from the Town Account for the month of **May** totaling **\$21,245.30**. Trustee Obradovich seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote**.

**Upcoming Seminars and Meetings**

- **July 1, 2024** - Monthly Board Meeting @ 7 pm at the Washington Township Center

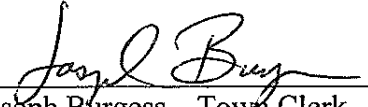

**Announcements:**

- **June 19** – Senior Movie Night at 6:30 at the Washington Township Center
- **June 26** – Senior Bus Trip – Chicago White Sox game

**Adjournment:**

Being no additional business to discuss, Trustee Obradovich made a motion to adjourn the meeting. Trustee Herlitz seconded the motion. There was no discussion on the motion and the motion was **unanimously approved by voice vote**. The Board Meeting adjourned at **7:43 pm**.

Respectfully submitted,

  
Joseph Burgess – Town Clerk

Approved by Board of Trustees: 7/1/2024

# Illinois Department of Transportation

Office of Highways Project Implementation / Region 1 / District 1  
201 West Center Court / Schaumburg, Illinois 60196-1096

5/14/2024

May 6, 2024

Mr. Michael E. Stanula  
Township Supervisor  
Washington Township  
30200 Town Center Road  
Beecher, IL 60401

Dear Mr. Stanula:

As you may be aware, the Illinois Department of Transportation (Department) once studied the Illiana Expressway to identify a long-term transportation solution in a study area, generally bounded by I-80 to the north, I-55 to the west, and I-65 to the east. The Illiana Expressway Act authorized the Department to study the Illiana Corridor. In 2015, the Department determined that due to a lack of sufficient capital resources, the Illiana Expressway project would not be able to move forward. As a result, the Department removed the project from its current multi-year plan and the Department suspended all existing project contracts and procurements. Since 2015, the Department has not initiated or continued any work on the Illiana corridor. Although the status has not changed, as specified in 605 ILCS 130/60(d) of the Illiana Expressway Act (the Act), an annual report should be sent to your office. Attached for your records is the annual report for FY 2024.

If you have any questions or need additional information, please contact me or Steve Schilke, Bureau Chief of Programming, at (847) 705-4393.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Jose Rios'.

Jose Rios, P.E.  
Region One Engineer

Enclosure

## ANNUAL REPORT FY24

As required, the Illinois Department of Transportation (IDOT) is providing an annual status report for the Illiana Corridor Study. The project study area covers approximately 950 square miles, and is generally bounded by I-80 to the north, I-55 to the west, and I-65 to the east.

IDOT and the Indiana Department of Transportation (INDOT) began the Illiana Corridor Study following the signing of a Bi-State MOU in the summer of 2010 and the completion of a pair of feasibility studies in the same year. This partnership was formed to identify a long term transportation solution in a study area extending from I-55 near Wilmington, IL on the west to I-65 near Lowell, IN on the east.

The project followed the requirements of the National Environmental Policy Act (NEPA) and was conducted as a Tiered Environmental Impact Statement (EIS). Tier One, which began in the spring of 2011, involved broad studies of the 950 square mile study area and the analysis of over 80 alternatives to obtain a preferred corridor, while Tier Two focused on detailed studies for the selected corridor. The Tier One EIS has been completed and a Record of Decision (ROD) was issued by the Federal Highway Administration (FHWA) on December 17, 2013. The Tier One ROD documented the selection of a preferred alternative, Corridor B3, and a No-Action alternative to be carried forward for more detailed studies in Tier Two. Tier Two, which involved the detailed study of the B3 Corridor and resulted in a selection of the preferred alternative, was completed with the issuance of the Record of Decision on December 10, 2014. Stakeholder outreach was a key element of the Illiana study, and was based upon IDOT and INDOT's Context Sensitive Solutions (CSS) policies, which encourage frequent and meaningful communication on every aspect of the project. In 2015, the IDOT determined that due to lack of sufficient capital resources, the Illiana Expressway will not move forward at this time. As a result, the Illinois Department of Transportation removed the project from its current multi-year plan and the Department suspended all existing project contracts and procurements.

### **Work accomplished during FY 24**

No work was accomplished in FY 24.

### **Next steps**

All work has been suspended.

RE: ZC-24-020 Washington Township Letter of Objection

---

After the staff report was published for ZC-23-020, Staff received a letter from Washington Township objecting to the special use permit for commercial solar and the related two variances stating the existing solar farms in the Township have been problematic. A copy of the letter is attached.

Zoning case ZC-24-020 is requesting a special use permit for a commercial solar energy facility and two variances: a variance to reduce the number of required mowings from 5 to 1, and a variance for ground cover plant height from 13" to 36".

Will County Planning and Zoning Commission

Re: Case Number: ZC-24-020

West Indiana Avenue Beecher, IL 60401

Staff

The following letter shall address the Washington Township Board of Trustees concerns towards the aforementioned zoning case.

We do not recommend the Zoning Request nor the Special Use Variances for a Solar Farm, based on the following:

- We are familiar with Solar Farms and currently have more than we care to have. Based on what we have already witnessed, solar properties are not well maintained. The issue, in the townships opinion, is the lack of specifics in the requirements for a solar farm. The County ordinance indicates that the "...the owner or operator of the solar farm shall be responsible for keeping the facility safe, sound and in a well maintained condition, including painting, grounds keeping....." "Well maintained" to whose standard. The requested variances for mowing only once a year and ground plant height to 36".  
IS NOT WELL MAINTAINED.
- This may be well-maintained for other areas of the state but not for Washington Township. The corner of Western and Indiana Avenues is the western gateway to our Township and is heavily used by visitors to our area. A property that is not well-maintained to acceptable standards is an embarrassment.
- In addition we would want to have the standards for Solar Farm landscaping to be in the same avenue as that for commercial properties in the county i.e. Land Use Buffers which require earth berms and a denser planting of both evergreens and deciduous trees.
- This property is zoned to grow food to be used for the benefit of our region and not to grow solar panels that only benefit those few who buy into the co-op.

In conclusion the Washington Township Board of Trustees are recommending a NO vote on ZC-24-020 which includes the Special Use Variances.

Michael Stanula-Washington Township Supervisor

## Supervisor - Washington Township

---

**From:** Jordan Belknap <jbelknap@tpoint-e.com>  
**Sent:** Friday, May 10, 2024 1:52 PM  
**To:** Supervisor - Washington Township  
**Cc:** Michelle Carpenter  
**Subject:** Letter of Concerns for Beecher Area Solar Project ZC-24-020  
**Attachments:** ZC-24-020 Memo to PZC\_Washington Twp.pdf

Dear Mr. Stanula

We have reviewed the concerns expressed by the Washington Township Board of Trustees regarding our application for ZA-24-020.

We appreciate your concern that solar farms should be well maintained and agree that should be the case. Our requests for variances on ground cover height and mowing frequency are related to allowing pollinator plantings to reach sufficient heights for propagation in the spring, and to allow for sheep grazing to be used to maintain the vegetative cover in addition to mowings. TurningPoint Energy has permitted several projects in Will County, but none have yet moved to the construction phase. I would be happy review any specific concerns with existing sites that you feel are not well maintained.

To address concerns related to visual appearance, we will be adding a vegetative buffer along the north and west sides of the project perimeter. This, along with the existing natural buffer of trees along the east and south sides of the property will provide vegetative screening around the full perimeter of the project area. We are updating our landscape plan to reflect the additional buffering.

I would be happy to discuss the vegetive buffer or any of your concerns with you at your convenience.

Thank you,  
Jordan
